

SPANISH DICTIONARY

GARCÍA ALBERTO

## INTRODUCTION

[www.wordmeaning.org](http://www.wordmeaning.org) is an open and collaborative dictionary project that, apart from being able to consult meanings of words, also offers its users the possibility of including new words or nuancing the meaning of existing words in it. As is understandable, this project would be impossible to carry out without the esteemed collaboration of the people who follow us around the world. This e-Book, therefore, was born with the intention of paying a small tribute to all our collaborators.

GARCÍA ALBERTO has contributed to the dictionary with 14472 meanings that we have approved and collected in this small book. We hope that the reader is very valuable and if you find it useful or want to be part of the project, do not hesitate to visit our website, we will be delighted to receive you.

Working Group

[www.wordmeaning.org](http://www.wordmeaning.org)

**paristmión**

pipita-refers to the expression : insectivorous bird, small, passerian, nests in the rocky walls and similar natural, is grey, white belly, wings and black tail and has as particularity announce to man the arrival of cold weather-

**pippin**

belonging to a variety or species demanzana-

**piratapuyo**

Piratapuyo-Amerindian people originally from Colombia, had their habitat in the departments of Guaviare-Vaupés.

**piratapuyos**

Piratapuyos—members of an Amerindian people native to Colombia, with habitat in the departments of Guaviare-Vaupés.

**piréticos**

relating or belonging to the fever

**pirola**

Pirola is an asteroid discovered by astronomer K. W . Reinmuth on October 28, 1927-

**pirúes**

pirues-son trees troppertenecientes to a dearbolanacardiaceo type -

**pisamira**

Pisamira - refers to a certain Amerindian people originally from Colombia, they had their habitat in the department of Vaupés.

**pisaaalense**

Aalense-flat refers to the lower floor of the Middle Jurassic or the upper Jurassic lower; during this time appear the first birds, lizards, amonites (decapod crustaceans), hedgehogs and starfish,

**pisondera**

pisondera-refers to the expression : insectivorous bird, small, passerian, nests in the rocky and similar natural walls, gray, white belly, wings and black tail and has as particularity announce to man the arrival of cold weather-

**pispa**

pispa-refers to the expression : insectivorous bird, small, passerian, nests in the rocky and similar natural walls, gray, white belly, wings and black tail and has as particularity announce to man the arrival of cold weather-

**pispas**

pisipas-belonging to the expression : insectivorous bird, small, passeriform, nests in the rocky walls and similar natural, gray, white belly, wings and black tail and has as particularity announce to man the arrival of cold weather-

### **pistachos**

. belonging to the fruit name alfonsígo or pistachio -

### **pitahayas**

. belonging to the name of the fruit the Dragon fruit or pitaya or fruit of the dragon-

### **pitiminíes**

belonging to a variety or species of climbing stems and small flowers derosal-

### **pittsburghia-**

Pittsburghia is the asteroid discovered by astronomer M. F . Wolf on April 29, 1902-

### **pituitaria o albarraz**

pituitary or albarraz-it is an annual plant, of the buttercup family, with erect and hairy stems of 1m tall, large leaves, intense blue flowers, fruits in black and rough capsules, with seeds inside that, like all parts of the plant, are extremely toxic-From these seeds was formerly obtained, a product that was used to combat lice-

### **pituitaria, albarraz**

Pituitary, albarraz-It is an annual plant, of the buttercup family, of erect and hairy stems of 1m of height, large leaves, intense blue flowers, fruits in black and rough capsules, with seeds inside that, like all the parts of the plant, are extremely toxic-From these seeds was obtained in the past, a product that was used to combat lice-

### **pituitaria-albarraz**

Pituitary-Albarraz-It is an annual plant, of the buttercup family, of erect and hairy stems of 1m of height, large leaves, intense blue flowers, fruits in black and rough capsules, with seeds inside that, like all the parts of the plant, are extremely toxic-From these seeds was obtained in the past, a product that was used to combat lice-

### **pituitarta albarraz**

Pituitary albarraz-It is an annual plant, of the buttercup family, of erect and hairy stems of 1m of height, large leaves, intense blue flowers, fruits in black and rough capsules, with seeds inside that, like all the parts of the plant, are extremely toxic-From these seeds was obtained in the past, a product that was used to combat lice-

### **pizco**

pizco-refers to the expression : small and new fish, of any species, which is sometimes used as bait-

### **pizpillo**

pizpillo-refers to the expression : insectivorous bird, small, passeriform, nests in the rocky and similar natural walls, gray, white belly, wings and black tail and has as particularity announce to man, the arrival of cold weather-

### **píreos**

relating or pertaining alfuego

**píricos**

relating or pertaining to fuego

**placel**

placel-refers to the expression : sandbank at the bottom of the sea, pleasure-

**placentaciones**

placentations-belonging to the structuring or location of eggs in the ovary cavity of angiosperm-

**placentaciones apicales**

apical-belonging placentations, in angiosperm plants, when eggs are located in the appendix of the ovarian cavity, as is the case in apples-

**placentaciones axilares**

axillary-belonging placentations, in angiosperm plants, when carpals are joined in a plurilocular ovary and eggs are at angles, as is the case in liliaceae, iridáceas-

**placentaciones basales**

basal-belonging placentations, in angiosperm plants, when eggs are located at the bottom of the ovarian cavity, as in quenopodiaceae, polygonaceae,

**placentaciones centrales**

central-belonging placentations, in angiosperm plants, when eggs are located in the central column of the ovary, as is the case in cariophyloceae-

**placentaciones marginales**

marginal-belonging placentations, in angiosperm plants, when eggs are located on the margins of the carpel, as is the case in legumes and ranunculaceae,

**placentaciones parietales**

parietal-belonging placentations, in angiosperm plants, when eggs are located on the wall of the ovary, as is the case in cucurbitaceae and orchids,

**placentación**

placentation- structuring or arrangement of eggs in the ovary cavity of angiosperms-

**placentación apical**

apical-referred placentation, in angiosperm plants, when eggs are located in the appendix of the ovarian cavity, as is the case in apples-

**placentación axilar**

axillary placentation is said, in plants, when carpals are joined into a multi-lacunar ovary and eggs are at angles, as is the case in liliaceae, iridáceas-

**placentación basal**

basal placentation- refers, in angiosperm plants, when eggs are located at the bottom of the ovarian cavity, as is the case in quenopodiaceae and polygonaceae-

**placentación central**

central placentation is said, in plants, when eggs are located in the central column of the ovary, as is the case in cariophyloceae-

**placentación marginal**

marginal placentation is said, in plants, when eggs are located on the margins of the carpal, as is the case in legumes and ranunculaceae-

**placentación parietal**

parietal placentation is said, in plants, when eggs are located on the wall of the ovary, as is the case in cucurbitaceae and orchids,

**placentarios**

It is said of placenta with losmamíferos, comprising the majority of mammals.

**placer**

pleasure-refers to the expression : sandbank at the bottom of the sea, placel-

**placeros**

relating or belonging to laplaza

**planarias**

It is said of Platyhelminthes losgusanos, also called TURBELLARIA.

**planchón**

It is a large, flat surface of various materials, especially in the mountain-

**planckia**

Planckia- is an asteroid discovered by the astronomer. F . Wolf on January 28, 1927-

**plancton**

referred to in alconjunto of tiny beings who are suspended in the sea or in fresh waters, at higher levels, where abundant light - includes the photosynthetic forms ( 41 phytoplankton; and heterotrophic ( 41 zooplankton; . -

**planetarios**

relating or belonging to losplanetas

**planiformes**

PLANIFORMESse is of a / / unaorden of insect wings finely veined and folded over the body when they are at rest,

whose larva is carnivorous and whose ninf is a cocoon, as the Antlion.

## **plano**

flat, lacking of / has no / no = high or low-

## **plano de inundación de un río**

refers to an enlargement of the River Valley as a result of the horizontal work of the River, which has a flat and wide bottom, runway occupies a part of the Fund, water covers the remaining area during the floods, i.e. it represents the plane of the flood.

## **planta del diablo**

Devil's plant-it is a genus of annual herbaceous plants of the solanaceae family, of which there are numerous species, branched erect stems, simple toothed leaves, spiny fruits in capsules with black seeds inside containing various types of alkaloids used in medicine as psychotropics; in general, it gives off a very strong smell and is toxic to humans but not to animals.

## **planta topera**

toperose plant is a genus of annual herbaceous plants of the solanaceae family, of which there are numerous species, of branched erect stems, simple toothed leaves, spiny fruits in capsules with black seeds inside that contain various types of alkaloids used in medicine as psychotropics; in general, it gives off a very strong smell, it is toxic to humans but not to animals and birds.

## **plantares**

relating or belonging to the plant of the foot

## **plantas del diablo**

devil plants - belonging to a genus of annual herbaceous plants of the nightshade family, of which there are numerous species, with branched erect stems, simple toothed leaves, thorny fruits in capsules with black seeds inside containing various types of alkaloids used in medicine as psychotropics; in general, it gives off a very strong smell, it is toxic to humans but not to animals and birds-

## **plantas toperas**

toperas-plants belonging to a genus of annual herbaceous plants of the nightshade family, of which there are numerous species, of branched erect stems, simple toothed leaves, spiny fruits in capsules with black seeds inside containing various types of alkaloids used in medicine as psychotropic; in general, it gives off a very strong smell, it is toxic to humans but not to animals and birds-

## **plasmodios**

It is said of losprotozoos parasites, responsible for malaria or malaria.

## **platelmintos**

He is said to losgusanos, flattened body, which are divided into three classes: TURBELLARIA, trematoda and cestodes.

## **platenses**

. says, argentina-provincia Buenos Aires, for children born in town of Republic: La Plata, capital of the province of

Buenos Aires -

### **pláceme**

It refers to the greeting or congratulations received by some happy event.

### **plásticos**

. belonging to the resin depolimeros of high-grade, or of large molecular mass -

### **plebeyez**

plebeyez -. It is said of the quality or quality or condition deplebeyo-

### **plecópteros**

Plecopterosses are of a / / unaorden of insects of elongated body, long antennae, and aquatic larva.

### **plococarpos**

affected by the latest lluvias-no losplococarposfueron there will be a harvest. belonging to the type of fruit that originates in several different, knotty-looking ovaries

### **plumosos**

to tienenplumas-

### **plutonianos**

relating or belonging alplaneta Pluto

### **plúmbicos**

relating or pertaining alplomo

### **pobos**

they are varieties or species white delalamo

### **podales**

relating or pertaining alpie

### **pol apple**

belonging to a variety or species demanzana-

### **polana-**

Polana- this is the asteroid discovered by astronomer J. Palisael on January 28, 1875-

### **poleame**

pulley-refers to the expression : collection of pulleys to be used especially, in one or more vessels

**poliestirenos**

. belonging to synthetic resin, obtained by normal condensation of styrene or vinylbenzene-

**poliédrico**

POLYHEDRAL = says what has or has several aspects.

**poliédricos**

people who have or manifest various aspects or facets.

**polifemo**

It is the murderer of Acis, a Sicilian shepherd who was the lover of Galatea-

**poligonal**

POLYGONAL = says what has or has several angles.

**poligonales**

to have various angles-

**polimíctico**

relating or belonging to blend of components, especially referred to the waters of the Lakes.

**polimícticos**

relating or belonging to blend of components

**politenos**

. belonging to synthetic resin obtained by condensation of the ethylene-

**polígamo**

polygamous = a time listed several women as wives.

**polyhymnia**

Polyhymnia-is the asteroid discovered by astronomer J. Chacornac on October 28, 1854-

**pomarrosas**

. belonging to the name of yambo fruit of the tree mirtaceo, originally from Malaysia -

**pomona**

Goddess of the fruits and vegetables, his name meant fruit-er was very worshipped by villagers and had several dates in the year where honor it -

**pompejis**

Pompejis- this is the asteroid discovered by astronomer C. H. F. Peters, September 25, 1879-

**ponderales**

relating or pertaining alpeso

**ponderosas**

belonging to a variety or depino-wild species

**poner a uno en el disparadero**

Put one in the pipeline -. It's a phrase that means " put to one about to say or do something violent-

**poner a uno en la calle**

popular phrase corresponding to " " say goodbye to the place of work or employment " ". -

**pontines**

pontines-belonging to a Philippine cabotage vessel, with canvas sails and is larger than the panco-

**pontín**

Philippine pontin-cabotage vessel, with canvas sails and is larger than the panco

**poplíteos**

relating or belonging to lacorva ( 41 knee, popliteal artery or the popliteal muscle-back

**populares**

relating or pertaining alpueblo

**por si las moscas**

popular phrase corresponding to " " do not rely on everything, trying to make in several places or jobs, prevent something " "-

**porcales**

belonging to a variety or species deciruela fat, just and ordinary

**porcinos**

relating or pertaining alpuerco

**porcunos**

relating or pertaining alpuerco

**poríferos**

It is said lostipo of aquatic, mostly marine, very primitive animals that live fixed and whose walls are pierced by channels of circulation.

**poroto**

they are varieties or species of laalubia, with many varieties. -

### **portataladros**

says of losinsectos, also called terebrant.

### **porteños**

It is said, in Argentina, of those born in: Ciudad Autónoma de Buenos Aires

### **portlandia**

Portlandia- this is the asteroid discovered by astronomer J. H . Metcalfel on September 30, 1908-

### **posesorios**

relating or belonging to laposesion or denoting it

### **positrónica**

positronica-relativa positron or antielectron, that is the antiparticle of the electron, it has the same mass and electric as the electron charge, although positive-

### **postales**

relating or belonging to losatomos, constituting the subject-related or corpuscles belonging alcorreo

### **potádromo**

potádromo-refers to the expression : fish that migrates only in freshwater. -

### **potádromos**

potadromus-belonging to the expression : fish that migrate only in freshwater. -

### **pradeños**

relating or belonging to losprados

### **pragmático**

pragmatic: relative or perten. to/el-la /-the: action ( and not speculation.

### **prahus**

prahus-belonging to a long and narrow Malay boat, of little draft-

### **praos**

praos-belonging to a long and narrow Malay vessel, of little draft-

### **pratenses**

that occur or live in the meadows

**precarios**

than tienenescasa stability or long -

**precosa**

. belonging to one variety or species defresa, frutilla-origen German -

**predador**

predator- Animal that hunts and feeds on other living organisms-

**predadores**

predators-belonging to the animal that hunts and feeds on other living organisms

**premontaña**

refers allimite of the passage from the slopes of the mountains toward the surface of the Plains; the step is often gradual and that line is called pre-montanosas zone or the foot of the mountains.

**prestante**

OUTSTANDING = says what has or possesses poise.

**prestantes**

It is said of those who have poise, they are excellent -

**prestatarios**

It is said of those who tend to take money to loan.

**presumido**

presumed that tienealto = self concept and brags about it.

**presuponer**

It is the quality or quality or condition denecesitar a precondition

**pretensiones**

claims - belonging to the expression: 1 ) boastfulness, pride, presumption, vanity-41-2; ambition, aspiration -

**pretoria-**

Pretoria- is the asteroid discovered by astronomerH . And. Wood on January 16, 1912-

**pretoriales**

relating or pertaining alpretor

**primaciales**

relating or pertaining alprimado or to the primacy

**primates**

It tells of climbing losmamíferos, of flat nails and highly developed brain, as the lemur and the apes.

**primaverales**

relating or belonging to spring. -

**pringlenses**

. says, argentina-provincia Buenos Aires, for children born in town of Republic: Coronel Pringles -

**prioritarios**

to tienenprioridades

**priscos**

belonging to a variety or species demelocoton-

**proboscídeos**

proboscídeos a term used in zoology - says of ungulates losmamíferos equipped with a prehensile trunk formed by the extension of the nose attached to the upper lip. , as the elephant -

**procelariformes**

Procelariformes is of a // unaorden of seabirds with the peak formed by various corneal pieces juxtaposed, as the albatrosses and Petrels.

**procordados**

It is said of animals next to the lower vertebrates, which lack of brain and central nervous system reduced to a cord.

**prodán,luca**

italo-escocés musician, that the Argentina-based formed the band Sumo in the early 80s, ( 1953 - 41 1987;. -

**proemiales**

relating or belonging alproemio ( prologue to a book )

**proganata**

PROGANATA = it is said which possesses or has protruding jaws.

**prognatos**

It is said of those who are outgoing JAWS

**prokne**

Prokne- is the asteroid discovered by astronomer C. H . F . Peters, March 21, 1879-

**prolapso**

prolapse- enlargement or decline of a part of the body such as the uterus, vagina, rectum-

### **prolapsos**

prolapses-belonging to the expression : enlargement or decline of a part of the body such as the uterus, vagina or rectum-

### **propiedad**

they say the quality or quality or condition deesencial or attribute of someone or something

### **propiedad horizontal**

popular phrase that refers to " " belonging to all residents, property in Commonwealth " "-

### **proserpina**

Proserpine is an asteroid discovered by astronomer K. T. R. Luther on May 5, 1853-

### **prosimios**

-mammal-like, similar to the monkey of nocturnal habits, and found in Islands of africa, Southeast Asia, Borneo and Java -

### **prosobranquios**

It is said of losmoluscos gastropods from gills located forward, such as periwinkle and the lapa.

### **protésicos**

relating or pertaining to medical laprotesis

### **protogeneia**

Protogeneia- this is the asteroid discovered by the astronomer. Schulhof on July 10, 1875-

### **prototípicos**

relating or belonging to losprototipos

### **protozoos**

says of unicellular itfollows of differentiated nucleus, without chlorophyll, usually equipped with a mouth, such as the ciliates ( Paramecium 41, flagellate ( trypanosome ) etc -

### **proturos**

It is very primitive small losinsectos, without wings, without eyes and without antennas, which live in moist environments ( Moss, soil, etc. ).

### **prócer**

It was called so each of individuals who, by their own right or appointment of the King, formed the establishment to which gave name, at the time of the conquest.

**prudentia**

Prudentia- This is the asteroid discovered by the astronomer. F . Wolf on February 13, 1901-

**psicocorticales**

relating or belonging to brain lacorteza

**psilocibina**

psilocybin-refers to a chemical compound that is extracted from a certain type of mushrooms of the genus Psilocybe. It is a powerful hallucinogen. -

**psilocibinas**

psilocybins-belonging to an alkaloid that is extracted from a genus of Psilocybe mushrooms. It is a hallucinogen. -

**psíquicos**

relating or belonging to DivX and psychological content

**psyche**

Psyche is an asteroid discovered by astronomerA. of Gasparis on March 17, 1852-

**pterígonos**

It is said losinsectos typically winged, presenting complete or incomplete metamorphosis.

**pterópodos**

Pteropodosse is of a / / unaorden of marine gastropods, swimmers, very light shell.

**pudios**

belonging to a variety or species depino-black-

**puerro**

name given to a variety or species (-) garlic porro

**pulcova-**

Pulcova- is the asteroid discovered by astronomer G. N . Neúiminel on September 3, 1913-

**pulga de arena**

sand-refers to a type of mite, similar to the common flea, that produces an unbearable itching and ulcers in the feet of people who come into contact with it--

**pulga tunga**

tunga-refers to a type of flea-like mite that produces an unbearable itching and foot ulcers of people who come into contact with it--

### **pulgas de arenas**

sand fleas refers to a type of mite, similar to the common flea. which produces an unbearable itching and foot ulcers of people who come into contact with it--

### **pulgas tungas**

tungas fleas belonging to a type of mite, similar to the common flea, that produces an unbearable itching and foot ulcers of people who come into contact with it--

### **pulmonados**

It is said of gastropod molluscs breathing through a lung, as the slug and snail.

### **pulmonares**

relating or pertaining to the lung

### **pulmón de acero**

popular phrase corresponding to " " great physical strength, that holds parties or racing without drowning " "-

### **puna**

a name sometimes given to the Andean Altiplano. -

### **punch**

reserve physical power which allows an athlete to make a decisive effort at any given time. ( 41 English voice);. -

### **punch**

Boxer, whose hits are of decisive quality. -

### **punching-ball**

English name of the ball held vertically by means of elastic cords and used to brand new in boxing. -

### **puneños**

the Argentine Republic, says of the natives of Puna

**punto culminante**

It is the most important point of greater intensity, splendor, for one thing. -

**punto de ebullición,de fusión o de congelación**

It is the temperature to which a body boils, melts, or freezes, respectively. -

**punto de vista**

It is the criterion, a way of judging or considering something. -

**punto débil o flaco**

part or most vulnerable appearance physically or morally of someone or something. -

**punto muerto**

anything that undergoes a process or development, time no advancement is no longer made. -

**puridad**

purity -. says the quality or quality or condition depuro -

**purulentos**

tiene no contain pus, or similar to it - appearance

**púlsar**

pulp- name that receives a high-density star that emits high-powered electromagnetic radiation-

**púlsares**

pulps-belonging to the expression: high-density star that emits extremely intense electromagnetic radiation-

**púnico**

one of the meanings corresponds to the Phoenicians of Carthage dialect. -

**pythia**

Pythia- is the asteroid discovered by astronomer A. H . Charloisel on December 18, 1897-

**quauhtli**

It is imperial mythical elave of the Aztecs-

**quebrantahuesos**

one of the names that is known to the osifrago, ave falconiforme.-

### **quebrapedra**

quebrapedra-it is a species of herbaceous plant, annual, of the family Asteraceae, about 70 cm tall, very toxic, considered a weed, native to South America; it has opposite leaves, small pink or white flowers of nauseating smell, becoming a weed of the tropical zones of the world-It is used medicinally as antibacterial or antiartritic, also, for its essential oils, it is used in cosmetics; is toxic to mammals-

### **quebrapedra caángay**

quebrapedra caángayse is a species of herbaceous plant, annual, of the family Asteraceae, about 70 cm high, very toxic, considered a weed, native to South America; it has opposite leaves, small pink or white flowers of nauseating smell, becoming a weed of the tropical areas of the world-It is used medicinally as an antibacterial or antiarthritic, also, for its essential oils, it is used in cosmetics; is toxic to mammals-

### **quebrapedra o caángay**

quebrapedra or caángay- it is a species of herbaceous plant, annual, of the Asteraceae family, about 70 cm high, very toxic, considered a weed, native to South America; it has opposite leaves, small pink or white flowers of nauseating smell, becoming a weed of the tropical areas of the world-It is used medicinally as an antibacterial or antiarthritic, also, for its essential oils, it is used in cosmetics; is toxic to mammals-

### **quebrapedra, caángay**

quebrapedra, caángay-is a species of herbaceous plant, annual, of the family Asteraceae, about 70 cm high, very toxic, considered a weed, native to South America; it has opposite leaves, small pink or white flowers of nauseating smell, becoming a weed of the tropical areas of the world-It is used medicinally as an antibacterial or antiarthritic, also, for its essential oils, it is used in cosmetics; is toxic to mammals-

### **quebrapedra-caángay**

quebrapedra-caángay-is a species of herbaceous plant, annual, of the Asteraceae family, about 70 cm high, very toxic, considered a weed, native to South America; it has opposite leaves, small pink or white flowers of nauseating smell, becoming a weed of the tropical areas of the world-It is used medicinally as an antibacterial or antiarthritic, also, for its essential oils, it is used in cosmetics; is toxic to mammals-

### **queche**

queche-small boat, of a single mast and in the same way by the stern as by the bow, is used in the North Sea-

### **quechemarines**

quechemarines-belonging to a small two-stick vessel with candles in the third and usually, with a deck of

### **quechemarín**

quechemarín-small ship of two sticks with sails to the third and generally , with a deck of few dimensions-

### **queches**

queches- belonging to a small vessel, single-stick and similarly by the stern as by the bow, is used in the seas of northern Europe-

### **quedarse**

refers to the action of the bull when, by their depletion or temperament, avoids the torn.

**quedarse**

refers to the action of the bull when, by their depletion or temperament, avoids the torn.

**quedarse corto**

popular phrase corresponding to " " be restrained in expressions of praise or insult " ". -

**queilantos**

belonging to a variety or species of warm regions dehelecho-

**quejigos**

belonging to one variety or species deroble carrasqueño -

**quelonios**

It is said losreptiles of body compressed and protected by a hard, like the turtle and the hawksbill shell.

**querengue**

rathergue-refers to the expression: tropical shrub of Mexican origin, with fruits in the form of clusters,

**querengues**

meringues belonging to the expression: tropical shrub of Mexican origin, with fruits in the form of clusters,

**querúbicos**

relating or belonging alquerubin, celestial spirit

**quetzalcóatl**

Goddess delaire - nature

**quetzalcóatl**

It refers to one of four creator gods, the God of the wind, of life, of the morning, the planet Venus, God of twins and monsters. It was born when there was neither light nor life in the world, and established a fundamental order in the cosmos.

**quietud**

refers to lacarencia of movements of the Bullfighter in his feet, during the execution of a sort.

**quijones**

Belonging to the umbeliferous plant with white flowers, dried fruit and upright stem.

**quijotiles**

relating or pertaining alquijote

**quijón**

It refers to the umbeliferous plant, with white flowers, dried fruit and upright stem.

### **quillote**

quillote-refers to the ship's external ballast, cast in block-

### **quillotes**

quillotes-belonging to the ship's outer ballast, cast in block-

### **quimera**

chimera-refers to the expression : cartilaginous fish, habitat in the depths of the Ocean, a close relative of sharks,

### **quinidina**

quinidine-this is a type of alkaloid extracted from the bark of the cinchona-

### **quinidinas**

. belonging to the alkaloid or drug, the bark of the Cinchona obtenidade -

### **quinidinas-**

quinidines-belonging to an alkaloid extracted from the bark of the cinchona-

### **quinina-**

quinine-alkaloid originally extracted from quina, quino bark, tree native to South America. Its name comes from the Quechua language. Famous for being used against malaria. -

### **quininas-**

quinins—belonging to an alkaloid originally extracted from cinchona, quinine bark, tree native to South America. Its name comes from the Quechua language. -

### **quinquirreme**

quinquirreme-old combat ship of the Carthaginian fleet, with five orders of oars-

### **quinteros**

Quinteros = a fifth to tienenarrendada or cultivated fields.

### **quintiles**

. belonging to the name of the carob tree, in Chile frutodel-

### **quintilla**

Quintilla- this is the asteroid discovered by astronomer J. H . Metcalfel on April 6, 1908-

### **quintrales**

belonging to a variety or species demuerdago of red flowers - removed substance for dyeing, in Chile -

## **quintriles**

. belonging to the name of the carob tree frutodel-

## **quirópteros**

losmamíferos is said that, as the bat, they are characterized by their adaptation to the flight, for which count with forelimbs converted into wings - in general, are nocturnal -

## **rabanero**

Rabanero-refers to the expression : gentilicio corresponding to the person born in Argamasilla de Calatrava-the locality where elrabanero is originally belongs to the Municipality in Ciudad Real , Castilla-La Mancha , Spain-

## **rabee**

concerning the expression " " wag the tail an animal to a bottom and another " ". -

## **rabosos**

our tips to frayed

## **rabón**

referred to in a animal which has the tail much shorter than the ordinary kind or which does not have it.

## **rabunda**

. belonging to one variety or species defresa, frutilla-origen Dutch -

## **racha**

streak-this is a violent movement of the air, burst-

## **rachas**

streaks-refers to violent air movements, bursts,
