

SPANISH DICTIONARY

GARCÍA ALBERTO

## INTRODUCTION

[www.wordmeaning.org](http://www.wordmeaning.org) is an open and collaborative dictionary project that, apart from being able to consult meanings of words, also offers its users the possibility of including new words or nuancing the meaning of existing words in it. As is understandable, this project would be impossible to carry out without the esteemed collaboration of the people who follow us around the world. This e-Book, therefore, was born with the intention of paying a small tribute to all our collaborators.

GARCÍA ALBERTO has contributed to the dictionary with 14472 meanings that we have approved and collected in this small book. We hope that the reader is very valuable and if you find it useful or want to be part of the project, do not hesitate to visit our website, we will be delighted to receive you.

Working Group

[www.wordmeaning.org](http://www.wordmeaning.org)

xantelasmas-pertencient to xanthoma, skin disease, which affects the eyelids or their surroundings-

**xanthe**

Xanthe- is the asteroid discovered by astronomerA. H . Charloisel on January 7, 1896-

**xanthippe**

Xanthippe- this is the asteroid discovered by the astronomer J. Palisa on November 22, 1875-

**xantina**

xanthine-generic chemical of the group of alkaloids, with pharmacological properties stimulating the central nervous system.

**xantinas**

xanthines- belonging to a generic chemical of the group of alkaloids, with pharmacological properties stimulating the central nervous system. -

**xantofila o xantófila**

xanthophyll or xanthophyll-pigment of reddish yellow or brown color, located in the leaves of higher plants and in certain types of algae-

**xantofila xantófila**

xanthophyll xanthophyll-pigment of reddish yellow or brown color, located in the leaves of higher plants and in certain types of algae-

**xantofila xantófilas**

xanthophyll xanthophylls-belonging to the reddish-yellow or brown pigment, located on the leaves of higher plants and

on certain types of algae-

**xantofila-xantófila**

xanthophyll - xanthophyll- reddish yellow or brown pigment, located in the leaves of higher plants and in certain types of algae-

**xantofilas**

xanthophylls-belonging to the reddish-yellow or brown pigment, located on the leaves of higher plants and in certain types of algae-

**xantofilas o xantófilas**

xanthophylls or xanthophylls-belonging to the reddish-yellow or brown pigment, located in the leaves of higher plants and in certain types of algae-

**xantofilas-xantófilas**

xanthophylls - xanthophylls-belonging to the reddish-yellow or brown pigment, located in the leaves of higher plants and in a certain type of algae-

**xantofíceas**

xanthophyceas-belonging to the class Xanthophyceae, which groups yellow green algae, which do not store their food reserves in the form of starch but do so as oils or polysaccharides, abound in fresh waters-

**xantofíceas**

xanthophyceas-belonging to the class Xanthophyceae, which groups yellow green algae, which do not store their food reserves in the form of starch but as oils or polysaccharides, abound in fresh waters.

**xantófila**

xanthophylla- reddish-yellow or brown pigment, located in the leaves of higher plants and in certain types of algae-

**xantófila o xantofila**

xanthophyll or xanthophyll-pigment of reddish yellow or brown color, located in the leaves of higher plants and in certain types of algae-

**xantófila xantofila**

xanthophyll xanthophyll-pigment of reddish yellow or brown color, located in the leaves of higher plants and in certain types of algae-

**xantófila-xantofila**

xanthophyll - xanthophyll- reddish yellow or brown pigment, located in the leaves of higher plants and in certain types of algae-

**xantófilas**

xanthophylls-belonging to the reddish-yellow or brown pigment, located on the leaves of higher plants and on certain types of algae-

**xantófilas o xantofilas**

xanthophylls or xanthophylls-belonging to the reddish-yellow or brown pigment, located in the leaves of higher plants and in certain types of algae-

**xantófilas xantofilas**

xanthophyll xanthophylls-belonging to the reddish-yellow or brown pigment, located in the leaves of higher plants and in certain types of algae-

**xantófilas-xantofilas**

xanthophylls - xanthophylls-belonging to the reddish-yellow or brown pigment, located in the leaves of higher plants and in certain types of algae-
