

SPANISH DICTIONARY

John Rene Plaut

INTRODUCTION

www.wordmeaning.org is an open and collaborative dictionary project that, apart from being able to consult meanings of words, also offers its users the possibility of including new words or nuancing the meaning of existing words in it. As is understandable, this project would be impossible to carry out without the esteemed collaboration of the people who follow us around the world. This e-Book, therefore, was born with the intention of paying a small tribute to all our collaborators.

John Rene Plaut has contributed to the dictionary with 11532 meanings that we have approved and collected in this small book. We hope that the reader is very valuable and if you find it useful or want to be part of the project, do not hesitate to visit our website, we will be delighted to receive you.

ictericia

GREEK ictheros yellow ICTERICIA. Pathology that occurs the premature, usually born before 35 weeks of gestation, as the cause of the immaturity of the liver. The color, which occurs on the skin, especially in the , stomach area and in the white of the eyes, is due to the bilirubin that is generated as degradation of the red blood cells. My son Daniel is a lucky one because he is eightmesino and began to turn yellow from the birth itself. The drastic solution is the complete blood transfusion. He was admitted to the neonatology ward where infrared rays are applied to him that reduce bilirubinemia, trying to avoid exchange. They placed it with 5 more babies, all women, and naked just like the. From the window I could observe him and insinuate that he would seize the opportunity, because probably never again in his life he would be with 5 in bed. I didn't know how much case he made me.

ictericia nuclear

NUCLEAR ICTERICIA Nuclear jaundice is a little scientifically known pathology, which occurs in newborns and consists of the accumulation of bilirubin in the blood when red blood cells are degraded, because of a deficiency of liver function. It originates from the fourth day and is very serious, because bilirubin accumulates in the brain producing brain damage. It has been determined that high doses of vitamin K, normally administered to reduce the chances of bleeding, produce dangerous levels of bilirubin, and that 1 or 2 mg are sufficient to obtain good results and avoid this risk. Jaundice is visualized by the yellowish color of ka skin (produced by bilirubin) especially in the stomach area and in the white of the eyes. See jaundice

ictericua

ICHTHYERCUA TYPING ERROR Jaundice
