

SPANISH DICTIONARY

JOHN

INTRODUCTION

www.wordmeaning.org is an open and collaborative dictionary project that, apart from being able to consult meanings of words, also offers its users the possibility of including new words or nuancing the meaning of existing words in it. As is understandable, this project would be impossible to carry out without the esteemed collaboration of the people who follow us around the world. This e-Book, therefore, was born with the intention of paying a small tribute to all our collaborators.

JOHN has contributed to the dictionary with 4154 meanings that we have approved and collected in this small book. We hope that the reader is very valuable and if you find it useful or want to be part of the project, do not hesitate to visit our website, we will be delighted to receive you.

For example, stem cells of the central nervous system can only differentiate into three types of nerve cells: neurons, E]astrocytes and oligodendrocytes (myelin, sheath).

multipotente

MULTIPOTENT cell capable of producing a limited range of cell lineages differentiated according to their location; thus the stem cells of the central nervous system have the potential to generate only three types of cells (nerves), namely neurons, oligodendrocytes and astrocytes.

multiproceso

Multithreading In computing: Mode of operation of a computer's CPU, in which it can execute totally independent task codes by returning one code and then another. Since the channels and read from memory or fixed disks is lower than the electronic processing speed, the CPU is capable of processing multiple applications "simultaneously" without clutter. Moreover, to feed it more quickly you have cache memories, which store the most frequently required codes in a repetitive way, as could be a routine of "written amount" in a process of issuing payment checks. There is a second form of multithreading and it is when the computer has several processors or CPUs, which are powered simultaneously. This allows for enormous processing speed, as might be required in case of manipulating big data or in cases of double or triple redundancy required, such as in the launch of a manned rocket or a space telescope.

multisegmento

MULTISEGMENT marketing term. Market segmentation consists of the division of the market into a series of homogeneous subgroups or segments to apply the different strategies appropriate to case one. For example, 2 subgroups can be divided, men and women, and within them, various age groups, 9-12, 13-18, 19-30, 31-60, 60. This would constitute a segment strategy.

multisindical

MULTI-UNION that includes several unions

multígamo

A multigamous person who marries several women and lives with them (together or separately) simultaneously over time.

NASHLY is a feminine given name. 2 . It is said in American urban language of a woman who has two personalities and who changes according to who is with her. Sometimes it is normal, but frequently has a wild behavior, being hot and wet, and with whom you will have a fun time.

nasli

NASLI name m . of Arab origin. According to the site todopapá means offspring, offspring, children. But also this site argues that nazli is an f-name. which means delicate, beautiful, precious. Clearly suspicious and surely one or both definitions are false. The concrete thing is that it is a name of both woman and man and its meaning according to those who carry it is offspring. But the normal thing is to write it with z and not with s.

natacha

NATACHA feminine name of Russian origin . It means 'relative to birth'. It is equivalent to Natalia in Spanish.

natural killer

NATURAL KILLER term that comes from the English and means born killer, abbreviated NK, are different lymphocytes of type T or type B, as well as the markers CD4 or CD8, which participate in immune defense. They were previously

called large granular lymphocytes. Its function is the destruction of infected cells and cancer cells, in addition to regulating immune responses. They are not phagocytic cells, but destroy the cells through attack on their plasma membrane by cytolysis. These cells are thought to detect the target cell by recognition of the abnormal glucocalyx. They are also thought to recognize them when infected or tumor cells exhibit peptides of their own in a class I MHC context. NK lymphocytes are produced in the bone marrow and their function is to attack infected cells, fungi, bacteria and viruses by secreting cytokines and enzymes called perforins and granzymes to destroy target cells.

navarristas

NAVARRISTAS actually, and again and again, queries with spelling errors. And I say this, because here it is about the Basque NABARRISTAS who follow the nabarrismo, movement of a political-cultural nature, emerged during the sixteenth century within the Kingdom of Nabarra located north of the Pyrenees, in the Renaissance. While to the south of the Pyrenean mountain range the Spanish occupation gave way to a political-cultural colonization, being the Spanish Holy Inquisition the main tool or weapon against the natives of the Country, an autochthonous cultural and political splendor based on the purest Humanism, took place first in the Nabarra University of the castle of Nerac and then in the Nabarra Court of the castle of Pau. To this day the NABARRISTAS, or better as they call themselves, pannabarristas, boast that all 7 Basque territories derive from the Castilian conquest of 1512 and that they are all nabarros.

navegación legislativa

LEGISLATIVE NAVIGATION set of procedures that a bill carries out until it is enacted. In a bicameral system it can last 10 years. It starts in a chamber and the decision to legislate is processed. If it is rejected it cannot be put on the table for a year. Whether it is approved is discussed in general and in particular. It is sent to the second . A rejection provokes his dispatch to a joint committee. After agreeing the project returns to the initial chamber to be discussed again. Many times it is discussed and indications are made. Then you must return to the first chamber to discuss these indications, which can be approved or rejected. If there are rejections, the law returns to a mixed commission. And so the years go by until the project is approved. It passes to the executive for approval and promulgation. But the resident p has the right to veto, in which case the project returns to the original legislative chamber to continue navigation (processing).

navero

nayrí

NAYRÍ feminine given name of Armenian origin. It means 'land of canyons and rivers'. See NAYRI .

nazhly

NASHLY female name derived from NASH, used as surname . It is not understood why Nashly asks to know by Nazhly, a name that does not exist. Nash comes from archaic Scots and meant 'rough' or 'impertinent' in the expression nashgab (rough gossip, impertinent fool) or, also, nashgob. Perhaps it took that meaning from Thomas Nash (1567-1601) an English playwright and satirical writer.

ná

NÁ SPAM

námbar

AMBER proper name in Mongolia

ndico

Nico spam

nebulizados

NEBULIZED pl . of the part . past the verb NEBULIZE, emit and disperse water vapor and other liquid particularized in the environment.

necesidades básicas

BASIC NEEDS Minimum subsistence requirements, which may vary according to each civilized community, but which will always include food, water, electricity, gas, clothing and public transport, and, depending on the context, accommodation and even education. When determining the rise in the cost of living periodically, the latter concepts are generally not included.

necrodulia

NECRODULIA from the Greek necro, 'dead, death' and dulía, 'servitude' In English there is no word ending in -dulia and there is only dulía and hiperdulía, referring to the cult that is paid to the angels and saints, and to the Virgin respectively. Then the term should be NECRODULÍA, meaning cult that is taxed to the dead. However, the accepted term is NECROLATRY

nedror

NEDROR Surely it is NEMROD, biblical character, or NED ROD and TOD, the neighbors of the Simpsons. It may be that it is NED ROREM, award-winning American composer and writer, Pulitzer Prize for music in 1976.

negrata

NEGRATA synonym for Nigger, or the word with N', first uttered by American humorist of color Richard Pryor in the '70s, a word that is taboo even for black politicians today. It is synonymous with black, but with a great derogatory charge.

nel

NEL a few days ago I described in detail this term and it is a displeasure to see it disappear, forcing me to work twice as hard. Protest. As we said before, NEL is a Mexicanism, like muletilla, which has a negative connotation and sense similar to 'no, no way' It was popularized internationally for its use by the Chilindrina in El chavo del ocho'Hoy is of colloquial use in Mexico, Guatemala, Honduras, Spain, Nicaragua, Costa Rica and Peru. The expression nel pastel is also used, as for rhyming, or nelson.

nemátodo

NEMATODE nematode from my school days I remember that this was a Class, one-edged (Vermes) that included only 3 classes (today they are phyla again), annelids, segmented cylindrical worms, such as leeches and earthworms; flatworms, symmetrical flatworms such as tapeworms, and nemathelminths or nematodes, cylindrical worms such as those of hydatid cysts and intestinal worms. Today it is part of 15 phyla, which include insect larvae, such as caterpillars (l. of butterflies) and CRESAS (l. of flies, which eat the corpses). As an anecdote I can say that the best way to learn is by teaching what is studied. I had to prepare a presentation to the course on the vermes and I can remember what I describe just 65 years later. Full-time university professors do it more for their drive to learn than for teaching

nemrod

NEMROD name of a biblical character described as the son of Kush, son of Ham, who was the son of Noah. According to the book of Genesis he was king of the land of Sinnar in Mesopotamia and "Nimrod was a vigorous hunter before the Lord."

And it is that this fish is very aggressive and attacks prey that are sometimes larger than its size. It measures from 60 to 80 cms and weighs up to 12 kilos. Its large mouth consists of jaws of 15 or 16 teeth, the upper one, and from 18 to 20, the lower one, all of them steely and triangular, arranged in the form of a saw, which is why it is also called sawfish. The GOLFAIR fish is the only one of the genus Pomatomus, and in turn is the only one of the pomatomidos family. They are a family of fish often included in the carangidae family.

pez hueso

BONE FISH any fish that has a mainly calcified bone structure and few cartilaginous pieces, instead of having a traditional complete cartilaginous structure. Scientifically they are called osteichthyes osteichthyes, (from the Greek osteon, "bone", and ichthus, "fish") commonly known as bony fish. They are gnathostomous vertebrates that include all fish endowed with internal bony skeleton, . Together with the chondrichthyes (cartilaginous fish), they form the two large groups comprising animals commonly called "fish", although there is a third group, that of jawless fish (lampreys and mixines), with very few current representatives.
