

SPANISH DICTIONARY

Jimeno Álvarez

INTRODUCTION

www.wordmeaning.org is an open and collaborative dictionary project that, apart from being able to consult meanings of words, also offers its users the possibility of including new words or nuancing the meaning of existing words in it. As is understandable, this project would be impossible to carry out without the esteemed collaboration of the people who follow us around the world. This e-Book, therefore, was born with the intention of paying a small tribute to all our collaborators.

Jimeno Álvarez has contributed to the dictionary with 6245 meanings that we have approved and collected in this small book. We hope that the reader is very valuable and if you find it useful or want to be part of the project, do not hesitate to visit our website, we will be delighted to receive you.

royano

Royal coffee rust is the most important disease in our coffee. This is caused by the fungus Hemileia vastatrix which infects the leaves of the coffee tree. Infection by this fungus causes premature leaf drop and, if there are attacks by insects, poor fertilization and poor growth conditions, coffee trees will be in a continuous stress and imbalance which will adversely affect production. At the agricultural Experimental Station have been investigated several strategies for the control of coffee rust, and we understand that it can not be based only in a practice. Recommendations for disease management integrates all practices that guarantee the vigour of the shrubs, the product quality and reduction in levels of infection of this fungus.
